PART 726—FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

APPORTIONMENT OF NATIONAL MARKETING QUOTAS FOR FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO FOR 1951-52 MARKETING YEAR

AUTHORITY: §§ 726.206 to 726.208 issued under sec. 375, 52 Stat. 66, as amended, 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1313.

§ 726.205 *Basis and purpose.* This document is issued to apportion among the several States the national marketing quotas for fire-cured, dark air-cured and Virginia sun-cured tobacco for the 1951–52 marketing year proclaimed on November 28, 1950, and published in the FEDERAL REGISTER (15 F. R. 8237), and to convert the State marketing quotas into State acreage allotments pursuant to section 313 of the Agricultural Adjustment Act of 1938, as amended. Prior to the apportionment of such quotas among the several States and the conversion of the State marketing quotas into State acreage allotments, public notice of the proposed action was given (15 F. R. 7124) in accordance with the Administrative Procedure Act (60 Stat. 237). The views and recommendations of fire-cured, dark air-cured and Virginia sun-cured tobacco growers and other interested persons have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 726.206 *Apportionment of the national marketing quota for fire-cured tobacco for the 1951–52 marketing year among the several States.* The national marketing quota proclaimed in § 726.202 is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	Acreage allotment
Kentucky	22,758
Tennessee	23,501
Virginia	10,602
Illinois	1
Reserve [1]	286

[1] Acreage reserved for establishing allotments for farms upon which no fire-cured tobacco has been grown during the past five years.

§ 726.207 *Apportionment of the national marketing quota for dark air-cured tobacco for the 1951–52 marketing year among the several States.* The national marketing quota proclaimed in § 726.203 is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	Acreage allotment
Kentucky	23,040
Tennessee	3,506
Indiana	137
Missouri	8
Reserve [1]	134

[1] Acreage reserved for establishing allotments for farms upon which no dark air-cured tobacco has been grown during the past five years.

§ 726.208 *Apportionment of the national marketing quota for Virginia sun-cured tobacco for the 1951–52 marketing year among the several States.* Since Virginia sun-cured tobacco is grown only

in the State of Virginia, the quota is apportioned only to that State under section 313 (a) of the Agricultural Adjustment Act of 1938, as amended. The national marketing quota proclaimed under § 726.204 of 4,042,000 pounds, less 20,000 pounds reserved for establishing allotments for farms upon which no Virginia sun-cured tobacco has been grown within the last five years, becomes the State marketing quota for Virginia. The State marketing quota is hereby converted in accordance with section 313 (g) of the act into a State acreage allotment of 4,316 acres. Likewise, the reserve of 20,000 pounds for establishing allotments for farms upon which no Virginia sun-cured tobacco has been grown within the past five years is hereby converted into 21 acres.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 986—HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

DETERMINATION OF HOP GROWERS' AGGREGATE PRODUCTION OF 1950 CROP

Pursuant to the provisions of § 986.6 (c) (1) Determination of quantity available for market, of Marketing Agreement No. 107 and Order No. 86, regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (7 CFR Part 986), effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), a determination is required by the Secretary of Agriculture regarding the aggregate production of the 1950 crop of hops by all growers.

The aforesaid provisions require the Growers Allocation Committee (established pursuant to said marketing agreement and order) to determine, or cause to be determined under its supervision, the total quantity of hops (net dry weight), meeting the requirements of § 986.5 *Control of quality*, of the aforesaid marketing agreement and order, available for market by each grower from his production of hops of the 1950 crop. After completing such determination, the Growers Allocation Committee is required, by means of addition, to compute the production by all growers. The Growers Allocation Committee is also required to notify each grower of such determination for that grower and allow a 10-day period for protest, if any, regarding such determination. The Growers Allocation Committee has met these requirements and furnished the Secretary with its findings, determinations, computations, and data in regard to the hops produced by each and all growers.

After consideration of all relevant matters, *it is hereby ordered*, As follows:

§ 986.203 *Determination of hop growers' aggregate production of the 1950 crop.* The aggregate production of the 1950 crop of hops by all growers is determined to be 58,331,103 pounds.

It is hereby found and determined that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER in that: The determination of the 1950 hop production by each grower and all growers is necessary prior to the computation of the salable percentage and allotment of the salable quantity for the individual growers; the requisite determination of the hop production by each grower has been made in accordance with the procedures prescribed in said marketing agreement and order; practically all hops of the 1950 crop have been harvested and growers would unduly suffer the inconvenience and cost of storage if this determination is not now made; this determination regarding the aggregate production of hops should be made as soon as practicable so that each grower's final salable allotment may be computed thereby permitting the immediate handling of the proper quantity of hops; and no special preparation on the part of handlers is required to comply with the provisions hereof.

Therefore, good cause exists for not giving preliminary notice, engaging in rule making procedure, and postponing the effective date of this document later than the date of its publication in the FEDERAL REGISTER (see section 4c of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 8th day of December 1950, to be effective on the date of publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

Subchapter F—Animal Breeds

[BAI Order 379, Amdt. 9]

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORDS OF PUREBRED ANIMALS

DOGS

On October 14, 1950, a notice of rule making was published in the FEDERAL REGISTER (15 F. R. 6916) regarding the proposed withdrawal of recognition by the Secretary of Agriculture of the book of record of purebred dogs entitled "Reichs-Zuchtbuch (Abteilung: Schnauzer und Pinscher)", sponsored by the Pinscher-Schnauzer Klub, Bahnhofstrasse 42, Wehrheim/Taunus, Germany, of which E. V. Josef Best is Secretary.

After due consideration of all relevant material presented in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by section 201, Paragraph 1606 of the Tariff Act of 1930, as amended (19 U. S. C. and Supp. III, sec. 1201, Par. 1606), hereby withdraws recognition of the said book of record, and hereby amends § 151.10 (a), Chapter I, Title 9, Code of Federal Regulations (14 F. R. 159), as amended, by removing the name of the said stud book from the list of books of record named under the subheading "dogs".

(Par. 1606, 46 Stat. 673, as amended; 19 U. S. C. 1201, par. 1606)

The foregoing amendment shall become effective on the 15th day of January 1951.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. W]

PART 222—CONSUMER CREDIT

INTERPRETATIONS

§ 222.126 *"Rental" transactions.* Since the amendment to Part 222 (Regulation W) adopted effective October 16, 1950 (15 F. R. 6118, 6931), the Federal Reserve Banks and the Board of Governors of the Federal Reserve System have received a number of inquiries concerning the applicability of Part 222 to various proposed arrangements for leasing automobiles or other listed articles.

Many of these inquiries seem to reflect a failure to appreciate the fact that Part 222 and the legislation under which it is issued extend to a great many transactions besides the ordinary conditional or instalment sale.

Leasing arrangements, other than those limited to a single payment, in general are subject to Part 222 and the legislation in the same manner as instalment sales. They are not exempt, and they are not a privileged class of transactions.

In the past when Part 222 was not in effect, there have been certain highly specialized operations which have been found somewhat more suited to leasing or rental arrangements than to other methods of financing. That fact does not exclude them from the operation of Part 222 and the legislation.

Of course, a lessor could comply with Part 222 by obtaining the required down payment and monthly payments (or deposits in equal amounts), and later could return to the customer any portion of such payments or deposits when the article is returned and the lease terminated. The lease might even provide in advance for such refunds.

However, the Board is examining further into the characteristics of the various proposed arrangements for leasing automobiles or other listed articles and will consider whether or not any of them are of such a special character as to make it desirable or feasible to relax any of the provisions of Part 222 to any extent for their benefit.[1]

(Sec. 5, 40 Stat. 415, as amended, sec. 601, Pub. Law 774, 81st Cong.; 50 U. S. C. App., 5. E. O. 8843, Aug. 9, 1941, 6 F. R. 4035; 3 CFR, Supp.)

Approved this 11th day of December 1950.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter I—Home Loan Bank Board, Housing and Home Finance Agency

Subchapter C—Federal Savings and Loan System

[No. 3744]

PART 145—OPERATIONS

WITHDRAWALS

DECEMBER 8, 1950.

Resolved that pursuant to Part 108 of the general regulations of the Home Loan Bank Board (24 CFR, Part 108), an amendment to § 145.4 of the rules and regulations for the Federal Savings and Loan System (24 CFR 145.4), to read in the form hereinafter set forth, is hereby proposed.

Resolved further that a hearing will be held on January 15, 1951 at 10 o'clock in the forenoon in Room 827, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington, D. C., before the Home Loan Bank Board, a member thereof, or a hearing officer designated by the Board, for the purpose of receiving evidence, oral views and arguments on said proposed amendment of the rules and regulations for the Federal Savings and Loan System, if written notice of intention to appear at said hearing is received by the Secretary to the Home Loan Bank Board at least five days before said date. If no such written notice of intention to appear has been received by the Secretary to the Board at least five days before the date set for the hearing, the hearing will be dispensed with. Whether or not a hearing is held, written data, views or arguments on said proposed amendment which are received by the Secretary to the Home Loan Bank Board on or before January 10, 1951 or prior to the conclusion of the hearing, if held, will be considered by the Home Loan Bank Board in connection with its consideration of the proposed amendment of the said rules and regulations.

The last sentence of § 145.4 of the rules and regulations for the Federal Savings and Loan System is amended to read as follows:

When a Federal association that has a Charter N is unable to pay all withdrawal requests within a period not exceeding 30 days from the date of receipt of written request therefor it shall allot to the payment of such requests the remainder of the association's receipts from all sources after deducting from total receipts appropriate amounts for expenses, required payments on indebtedness, earnings distributable in cash to holders of savings accounts, and a fund for general corporate purposes equivalent to not more than 20 percent of the association's receipts from holders of its savings accounts and from its borrowers.

So that such section, as amended, would read as follows:

§ 145.4 *Withdrawals.* When a Federal association that has a Charter N is unable to pay all withdrawal requests within a period of 30 days from the date of receipt of written request therefor, the association shall then number and file all withdrawal requests in the order received and shall proceed in the following manner while any withdrawal request remains unpaid for more than 30 days:

Withdrawal requests shall be paid in the order received and if any holder of a savings account or accounts has requested the withdrawal of more than $1,000, he shall be paid $1,000 in order when reached and his withdrawal request shall be charged with such amount as paid and shall be renumbered and placed at the end of the list of withdrawal requests, and thereafter, upon again being reached, shall be paid a like amount, but not exceeding the withdrawal value of his savings account, and until such withdrawal request shall have been paid in full, shall continue to be so paid, renumbered, and replaced at the end of the withdrawal requests on file: *Provided*, That when any such request is reached for payment, such association shall so advise the holder of such savings account by registered mail to his last address as recorded on the books of the association and, unless such holder shall apply in person or in writing for the payment of such withdrawal request within 30 days from the date of the mailing of such notice, no payment on account of such withdrawal request shall be made and such request shall be cancelled: *And provided further*, That the board of directors shall have absolute right to pay on an equitable basis an amount not exceeding $200 to any holder of a savings account or accounts in any calendar month and without regard to any other provision of this section.

When a Federal association that has a Charter N is unable to pay all withdrawal requests within a period not exceeding 30 days from the date of receipt of written request therefor it shall allot to the payment of such requests the remainder of the association's receipts from all sources after deducting from total receipts appropriate amounts for expenses, required payments on indebtedness, earnings distributable in cash to holders of savings accounts, and a fund for general corporate purposes equivalent to not more than 20 percent of the association's receipts from holders of its savings accounts and from its borrowers.

(Sec. 5 (a), 48 Stat. 132, Reorg. Plan No. 3 of 1947, 12 F. R. 4981, 3 CFR 1947 Supp. 61 Stat. 954; 12 U. S. C. 1464 (a), 5 U. S. C. 133y-16)

On May 9, 1950, there was published in the FEDERAL REGISTER (15 F. R. 2757), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), notice that the Secretary of Agriculture was considering the issuance of regulations under the so-called Farm Products Inspection Act, consisting of the item for market inspection of farm products recurring each year in the annual appropriation act for the Department of Agriculture and currently found in the Department of Agriculture Appropriation Act, 1951 (Chapter VI, Public Law 759, 81st Cong.), to provide for Federal inspection and certification of the condition of meats, meat byproducts, and meat food products upon request of certain plants which prepare or process such commodities.

When the aforesaid notice was issued, the service to be offered was restricted to plants that were not operating under Federal inspection pursuant to the Meat Inspection Act of March 4, 1907 (21 U. S. C. 71 et seq.). However, the Secretary of Agriculture is now considering extending the service to all meat packing plants, including plants which do operate under such inspection, to the extent that they may request such service.

To accomplish this purpose, it is now proposed, pursuant to the authority of the said Farm Products Inspection Act, the said Meat Inspection Act, and sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624), to issue the regulations to read as follows:

ADMINISTRATION

§ 165.3 *Administration.* The Chief of Division, under the general supervision and direction of the Chief of Bureau, is charged with the administration of the regulations in this part and of the acts in so far as they relate to the subject matter of the regulations, and is authorized to designate important central markets, to issue such instructions within the limits of the regulations as he may deem proper for the conduct of the service, and to perform the other functions vested in him by the regulations.

KIND OF SERVICE

§ 165.4 *Kind of service.* The service provided under the regulations in this part shall be voluntary continuous inspection at plants for which application for service is made and shall be conducted to assure that product certified by the inspectors at such plants and marked as provided in the regulations is sound, healthful, wholesome, and fit for human food.

OBTAINING SERVICE

§ 165.5 *Availability of service.* (a) Service may be offered, whenever inspectors are available, at important central markets designated by the Chief of Division and at points which the Chief of Division determines may be conveniently reached from such markets.

(b) The Chief of Division may deny service to or withdraw it from any important central market or other place or applicant when for administrative reasons he deems such denial or withdrawal necessary or in the interest of the service. Notice of such denial or withdrawal shall be given promptly to the applicants for service and other persons concerned, with a brief statement of the reasons for the action taken.

§ 165.6 *Eligibility for service.* Upon application, service may be inaugurated at any plant which is found to meet the requirements of the regulations in this part, and in which animals are slaughtered, or carcasses, parts of carcasses, meat, meat byproducts, or meat food products of, or derived from, animals, capable of use as human food, are wholly or in part, canned, cured, smoked, salted, packed, rendered, or otherwise prepared.

§ 165.7 *Applications for service.* (a) The proprietor or operator of any plant of the kind specified in § 165.6 may apply to the Chief of Division for service. In case of change of ownership or operation or change of location of a plant which is furnished service pursuant to the regulations in this part, a new application for service shall be made or the service will be discontinued.

(b) Applications shall be made on a form obtainable from the Meat Inspection Division, Bureau of Animal Industry, United States Department of Agriculture, Washington, D. C. The application shall be accompanied by the bond provided for in § 165.21 (a).

§ 165.8 *Drawings to accompany applications.* Triplicate copies of complete drawings, with specifications, showing floor plans including the locations of such features as the principal pieces of equipment, floor drains, principal drainage lines, handwashing basins, and hose connections for clean-up purposes; elevations; roof plans when necessary to show size and location of skylights and the like; cross and longitudinal sections of the various buildings, showing such features as principal pieces of equipment, heights of ceilings, conveyor rails, and character of floors, walls, and ceilings; and a plot plan showing relationship of various departments and structures of the plants, properly drawn to scale, shall accompany applications.

§ 165.9 *Review of applications.* The Chief of Division will determine whether applications for service shall be granted or denied. Applications will be denied unless the plant for which application is made is in a sanitary condition and otherwise complies with the regulations in this part, and the applicant agrees to maintain such condition, to provide adequate facilities for conducting such service, and otherwise to comply with such regulations. Applications will be

denied unless accompanied by the bond specified in § 165.21 (a). The Chief of Division shall immediately notify any applicant whose application is denied of the fact of such denial and the reason therefor.

§ 165.10 *Withdrawal of applications.* Applications for service may be withdrawn at any time upon request of the applicants and upon payment of costs incurred by the Bureau in connection with such applications prior to the request for withdrawal.

SERVICE

§ 165.11 *Conditions of service.* When an application for service is granted, the inspector in charge shall, at or prior to the inauguration of service, inform the applicant of the requirements of the regulations in this part. Service shall not be begun if a plant is not in a sanitary condition. The applicant shall adopt and enforce all measures and comply with all directions which the inspector in charge may prescribe for carrying out the purposes of this section.

§ 165.12 *Separation of official plants.* Each official plant shall be separate and distinct from any other official plant, from any unofficial plant in which any product is handled, and from any other unofficial plant at the discretion of the Chief of Division. Service will not be provided in any building any part of which is used as living quarters, unless the part for which service is requested is separated from such quarters by floors, walls, and ceilings of solid concrete, brick, or similar material and the floors, walls, and ceilings are without opening that directly or indirectly communicates with any part of the building used as living quarters.

§ 165.13 *Official number.* To each plant granted service an official number shall be assigned. Such number shall be used to identify all meat, meat by-product, and meat food product prepared in the plant. Two or more official plants under the same management may be granted the same official number, provided a serial letter is added after the number in each case to identify the plant and product thereof.

§ 165.14 *Form of certification legend.* (a) The abbreviated form of the certification legend as illustrated below shall be used for directly marking, by stamping with approved ink or burning brand, product which is inspected and certified under the regulations in this part. The number used shall be the one assigned to the plant by the Division.

(b) The certification legend illustrated below shall be used on labels of product which is inspected and certified under the regulations in this part. The number used shall be the one assigned to the plant by the Division.

(c) When the service provided for in this part is extended to establishments operating under the Meat Inspection Act (21 U. S. C. 71 et seq.), the inspection legend provided for in Subchapter A of this chapter, as amended, shall be accepted in lieu of the markings provided for in paragraphs (a) and (b) of this section.

§ 165.15 *Alteration, imitation, or misuse of certification marks, brands, and other devices.* No person shall alter, deface, imitate, simulate in any respect, or use for the purpose of misrepresentation or deception any certification legend, symbol, or other mark provided for in the regulations in this part, or any brand, stamp, tag, label, seal, marker, or other device for affixing such legend, symbol, or other mark to product or other articles or animals as provided in such regulations.

§ 165.16 *Restriction of movement of product from and into official plants.* No product shall be removed from or brought into any official plant except with the approval of the inspector at such plant and in accordance with the requirements of the regulations in this part.

§ 165.17 *Movement of product in interstate or foreign commerce.* Product inspected and certified under the regulations in this part is not eligible for movement in interstate or foreign commerce unless such inspection and certification are being conducted in an establishment operating under the Meat Inspection Act (21 U. S. C. 71 et seq.) and the meat inspection regulations in Subchapter A of this chapter, as amended.

§ 165.18 *Applicability of Meat Inspection Regulations.* When the plant receiving service is one that is not engaged in interstate or foreign commerce, all of the provisions of the Meat Inspection Regulations in Subchapter A of this chapter, as amended, except Parts 1, 2, 4, 5, 19, 23, 24, 26, 27, and 29 of said subchapter and the provisions of other regulations in said subchapter that relate only to interstate or foreign commerce or are otherwise inapplicable as determined by the Chief of Division, shall apply to the service provided for in this part. All of such applicable provisions of the said Meat Inspection Regulations are hereby made a part of the regulations in this part. With reference to such plants, wherever in said applicable Meat Inspection Regulations the phrases "inspected and passed", "U. S. inspected and passed", "U. S. inspected and passed by Department of Agriculture" and "inspection legend" appear, they shall be construed, respectively, to mean "inspected and certified", "U. S. inspected and certified", "U. S. inspected and certified by Department of Agriculture" and "certification legend". However, when the service provided for in this part is extended to establishments operating under the Meat Inspection Act (21 U. S. C. 71 et seq.), all of the provisions of the meat inspection regulations in Subchapter A of this chapter, as amended, shall apply, and the said regulations are hereby made a part of the regulations in this part for that purpose. Wherever in said regulations the term "official establishment" appears, it shall be construed to mean "official plant".

§ 165.19 *Withdrawal of service.* After opportunity for hearing before a proper official in the Department has been accorded the applicant, service may be withdrawn from an applicant who: (a) Persistently fails to comply with any provision of the regulations in this part or the instructions or directions issued thereunder; (b) makes a wilful misrepresentation or engages in a fraudulent or deceptive practice in connection with the making of any application for service; (c) violates § 165.15; (d) interferes with or obstructs any Division employee in the performance of his duties under the regulations in this part by intimidation, threats, or other improper means; or (e) gives, pays, or offers directly or indirectly to any Division employee authorized to perform any duty under the regulations in this part any money or other thing of value with intent to influence such employee in the discharge of his duty. Pending final determination of the matter, the Chief of Division may suspend service without hearing. Except in cases of wilfulness or those in which the public health, interest, or safety requires otherwise, prior to the institution of proceedings for any withdrawal or suspension the facts or conduct which may warrant such action shall be called to the attention of the applicant in writing, and he shall be given an opportunity to demonstrate or achieve compliance with the requirements of the regulations in this part and instructions and directions thereunder.

FEES

§ 165.20 *Fees for service.* (a) Each applicant for service shall pay a fee to reimburse the Bureau for costs incurred by the Bureau in connection with review of the application and examination of the facilities of the plant for which service is requested to determine the eligibility of the plant for service.

(b) Applicants granted service shall pay such further fees as are reasonable and necessary to cover the cost of the

service rendered. The fees shall be fixed as follows: The Chief of Division shall designate the number of inspectors necessary to conduct an efficient inspection and certification service at each particular plant for which service is requested, and calculate the number of man-weeks of work to be performed by such inspectors each week. A basic weekly charge at the rate of $112.00 shall be made for each man-week. In addition to the basic weekly charge, each applicant shall pay (1) a charge of $2.40 per man-hour for service rendered at his plant on any Saturday, Sunday, or holiday, or for more than 8 hours on any day, and (2) $0.24 per man-hour for each hour of service rendered at his plant between the hours of 6 p. m. and 6 a. m. except when such hours come within a period of overtime referred to in subparagraph (1) of this paragraph.

§ 165.21 *Assurance of payment of fees.* (a) Each applicant, at the time of making application for service, shall post with the Bureau a bond in the amount of $1,000 to assure payment of the fees prescribed in § 165.20 (a).

(b) Each applicant who is about to receive service at any plant shall post with the Bureau a bond to assure payment of the fees prescribed in § 165.20 (b). The bond shall be in multiples of $1,000 but not less than ten times the basic weekly charge for the particular plant, and shall guarantee payment for all charges for service including overtime, holiday, and night differential pay.

(c) The Chief of Division shall withhold or withdraw the service upon failure of any applicant who is receiving or has requested service to furnish such assurance of payment. Prompt notice of such withholding or withdrawal shall be given to the applicant with a statement of the reason therefor.

§ 165.22 *How fees shall be paid.* Fees shall be paid by the applicant for service in accordance with directions on the fee bill furnished him.

§ 165.23 *Disposition of fees.* Fees collected by the Bureau for service rendered shall be deposited in a trust fund in the Treasury of the United States and used for the conduct of service under such agreement.

MISCELLANEOUS

§ 165.24 *Publications.* Publications under the act and the regulations in this part shall be made in the FEDERAL REGISTER or such other media as the Chief of Division shall designate for the purpose.

§ 165.25 *Filing of orders denying or withdrawing service.* All final orders denying or withdrawing service (except those required for good cause to be held confidential and not cited as precedents) shall be filed with the Division and be available to public inspection.

§ 165.26 *Procurement of product from official plant by Division employees.* Division employees shall not procure product from an official plant except through the retail market when such a market is maintained. In the absence of such retail market, Division employees shall not procure product from an official plant unless such plant sells such product direct to its own employees. Division employees must obtain receipts for money paid to official plants for product.

Any interested person who wishes to submit written data, views, or arguments concerning the foregoing proposed regulations may do so by filing them with the Chief of the Meat Inspection Division, Bureau of Animal Industry, Agricultural Research Administration, U. S. Department of Agriculture, Washington 25, D. C., on or before January 15, 1951.

COMMUNICATIONS FACILITIES REQUIRED FOR DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 40.31-1 *Communications facilities required for domestic scheduled air carrier operations (CAA rules which apply to § 40.31).* (a) A domestic scheduled air carrier shall provide a sufficient number of ground-air communications stations to insure that under normal operating conditions, adequate and continuous direct communications are possible between the air carrier's ground stations and its aircraft in flight over the entire route.

(b) A domestic scheduled air carrier shall provide a communication system capable of expeditiously handling all air traffic control messages between its aircraft and the appropriate air route traffic control centers in whose areas the aircraft are operating. This requirement shall be accomplished (1) by establishing and maintaining a sufficient number of communications stations in each air route traffic control center's area through which the air carrier conducts operations, or (2) by entering into a contractual agreement with another air carrier or an appropriate communications agency to handle its air traffic control messages in those air route traffic control centers' areas where it does not maintain its own stations, or (3) in those cases where the air carrier's communications stations (or those stations contracted for in subparagraph (2) of this paragraph) are located outside the air route traffic control center area through which it conducts operations, by providing adequate, direct inter-phone facili-

ties, restricted to the handling of air traffic control messages, between such communications stations and the air route traffic control center through whose area it is conducting operations.

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

WIDTH OF ROUTE

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 41.137-2 *Width of route (CAA rules which apply to § 41.137 (a)).* The width of a route outside the continental limits of the United States (including Alaska) shall be designated or approved by the Administrator as follows:

(a) Unless otherwise specified in the Air Carrier Operating Certificate, Operations Specifications—En route, a route shall have a width of five miles on either side of a straight line connecting two navigational fixes which determine the route segment. The minimum en route altitudes for such routes shall be those altitudes prescribed in CAR 41.114 unless higher altitudes are prescribed in the Operations Specifications—En route.

(b) Where the air carrier desires a route width greater than that specified in paragraph (a) of this section because of terrain features, weather, etc., application shall be made by the carrier for an appropriate amendment to the Air Carrier Operations Specifications. The application shall request the width of the route required to permit such deviations and give complete justification for such route width. Approval of such route by the Administrator shall be contingent upon permission for the deviations by the country or countries concerned and the adequacy of the navigational, communicational and meteorological facilities as determined by proving flights. Where such proving flights are not required in the interest of safety the Administrator may waive the requirement for the proving flight. The route width, and a minimum en route altitude which is sufficient to clear all terrain within the confines of the route by not less than 2000 feet shall be specified in the Operations Specifications—En route, for the routes so approved.

(c) Where a route extends over a large body of water and celestial or other specialized means of navigation are required, no specific route width shall be prescribed in the Operations Specifications of the Air Carrier Operating Certificate. Such routes shall be specified in the Operations Specifications—En route, under the column entitled "Via" as "Direct*". The asterisk shall call attention to a footnote on the bottom of the page which shall state: "No route width prescribed." Great circle, rhumb line, or best time track operations over such routes shall be permitted at the discretion of the air carrier.

(d) In other cases due to high terrain, military restrictions, etc., a route may be designated showing a total width of less than ten miles. The width of such routes designated by the Administrator and the minimum en route altitudes therefor shall be prescribed in the Operations Specifications—En route. Approval of any such route shall be contingent on adequacy of the navigational communicational and meteorological facilities on such route or portion thereof.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

TARIFF CLASSIFICATION

NOTICE OF PROSPECTIVE CLASSIFICATION OF COTTON TABI SOCKS HAVING A LINE OF DEMARCATION BETWEEN THE SOLE AND THE UPPER

DECEMBER 8, 1950.

It appears probable that a correct interpretation of paragraph 1530 (e), Tariff Act of 1930, requires that cotton tabi socks, a type of foot covering of the general shape of low shoes, each having three fastenings at the rear and a separate compartment for the great toe, and each having a line of demarcation between the sole and the upper be classified thereunder at a rate of duty higher than that heretofore assessed on such articles under an established and uniform practice.

Pursuant to § 16.10a (d), Customs Regulations of 1943, as amended, notice is hereby given that the existing uniform practice of classifying such articles under paragraph 919, Tariff Act of 1930, as modified, as "articles of wearing apparel * * * manufactured wholly or in part, wholly or in chief value of cotton, and not specially provided for" is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of cotton tabi socks which are submitted to the Bureau of Customs, Washington 25, D. C., in writing. To assure consideration of such communications, they must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. [Case No. 93]

CLEON KEDROS AND EMANUELE TRAKAKIS

ORDER SUSPENDING LICENSE PRIVILEGES

In the matter of Cleon Kedros, 11 Via Trento, Trieste, Free Territory of Trieste; Emanuele Trakakis, 11 Via Trento, Trieste, Free Territory of Trieste, respondents.

This proceeding was begun by the issuance of a charging letter dated June 13, 1950, wherein the Office of Industry

[1] See F. R. Doc. 50-11553, 43 CFR, appendix, *supra*.

and Commerce, Department of Commerce, charged Cleon Kedros and Emanuele Trakakis of the Free Territory of Trieste (hereinafter called the respondents), and Theodore E. Kedros of New York, New York, with having violated section 6 of the act of July 2, 1940 (54 Stat. 714), as amended, and the Export Control Act of 1949 (63 Stat. 7), and the regulations promulgated under said statutes. During the period between June 1 and October 11, 1950, said Office of Industry and Commerce administered export controls within the Department of Commerce. Prior to and since that period, export controls were and are now administered by the Office of International Trade.

It was alleged in said charging letter that the respondents, who resided in and were engaged in business in Trieste, caused Theodore E. Kedros, their agent and the brother of Cleon Kedros, to place with certain suppliers in the United United States, during 1948 and 1949, orders for shipments of truck tires and tubes to the respondents in Trieste; and that they caused said suppliers to make twelve applications for, and in nine cases to obtain, validated export licenses for shipments of truck tires and tubes on the basis of representations that their ultimate destination would be Trieste. It was alleged further that the respondents, through Theodore E. Kedros, caused exportations to be made under said licenses, pursuant to bills of lading wherein they described the shipments as being made to Trieste "in transit"; that the respondents' intended destination for said tires and tubes was not Trieste; and that the respondents caused or permitted said tires and tubes to be transshipped from Trieste to Yugoslavia.

After receiving the above mentioned charging letter, Theodore E. Kedros consented to the issuance of an order revoking all of his outstanding export licenses and denying to him for the duration of export controls the privilege of exporting to any destination any commodity on the Positive List. Said order was issued under date of July 28, 1950, and was published in the FEDERAL REGISTER (15 F. R. 4979) on August 3, 1950.

Cleon Kedros and Emanuele Trakakis filed written answers to the charging letter, denying responsibility for any violation of the export control laws and regulations. They did not request an oral hearing and, accordingly, their answers and the evidentiary materials in the possession of the Enforcement Section of the Office of Industry and Commerce were presented informally to the Compliance Commissioner, who has filed his report thereon, dated October 30, 1950, with the Assistant Director for Export Supply, Office of International Trade.

It appears from the record and the Compliance Commissioner's report that between February and May 1948, the respondents caused Theodore E. Kedros to place various orders for truck tires and tubes with United States suppliers who applied for and obtained nine export licenses, of which four were used to export to the respondents in Trieste approximately 3,000 sets of tires and tubes, valued at more than one hundred thousand dollars. Most of these tires and tubes appear to have been transshipped to Yugoslavia.

It further appears from the record and the Compliance Commissioner's report that between December 1948 and July 1949, the respondents caused Theodore E. Kedros to place additional orders for truck tires and tubes with United States suppliers, who filed three more applications for validated licenses to export an aggregate of 7,500 sets of tires and tubes to respondents in Trieste. None of these applications were granted because of questions about the ultimate destination. Investigation then disclosed the nature of respondents' business, brought forth an admission by Cleon Kedros that transshipment to Yugoslavia of the tires and tubes covered by the pending applications was contemplated, and led to discovery that certain of the shipments in 1948 had been transshipped to Yugoslavia.

It further appears from the record and the Compliance Commissioner's report that all of the license applications contained false representations that the tires and tubes would be used to maintain public transportation in Trieste; that Theodore E. Kedros furnished to the United States suppliers the information as to end use and ultimate destination set forth in said applications; that such information had, according to Theodore E. Kedros, been informally and orally furnished to him by the respondents; that the respondents orally instructed Theodore E. Kedros to see that all shipments were made on bills of lading reciting that the destination was "Trieste in transit"; that the respondents were fully aware of the significance of the "in transit" designation; and that they admitted, prior to the issuance of the charging letter, knowledge of the Yugoslav destination of the tires and tubes.

It further appears from the record and the Compliance Commissioner's report that the respondents are closely associated in the export-import business in Trieste; that they have heretofore engaged in the export business in the United States; that they visited Theodore E. Kedros, the brother of Cleon Kedros, in the United States during 1948–1949, the period involved in this case; and that Theodore E. Kedros visited them in Trieste during the same period.

It further appears from the record and the Compliance Commissioner's report that the close personal and business connections between respondents and Theodore E. Kedros, the informal character of the arrangements which they worked out, and the other facts and circumstances found in the record, all clearly indicate that the respondents directed the course of Theodore E. Kedros' actions and caused the aforesaid false representations to be made and transshipments to be effected, in knowing contravention of the export control laws and regulations.

The Compliance Commissioner has recommended in his report that the respondents, like Theodore E. Kedros, should be subjected, for the duration of export controls, to an order barring them from participating in exports of Positive List commodities. He has stated in his report that as long as the interests of the United States require that shipments be prevented from being diverted from their licensed destination, those who have shown their willingness not only to divert, but also to misrepresent and conceal their intentions in that respect, should be barred from such an opportunity, particularly where they are operating beyond the territorial power of the United States to control them.

The Compliance Commissioner has therefore recommended that all outstanding export licenses in which respondents Cleon Kedros or Emanuele Trakakis or either of them appear as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise as a party in any capacity, be forthwith revoked and returned to the Office of International Trade for cancellation; that said respondents be denied for the duration of export controls the privilege of obtaining or using, or participating directly or indirectly either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party, in the obtaining or using of export licenses, including general licenses as well as validated licenses, for shipment from the United States to any destination of any commodity included in the Positive List as promulgated by the Office of International Trade and as such Positive List may be constituted from time to time; that said respondents be further declared ineligible for the duration of export controls to be parties to any exportation of any Positive List commodity; that during such period the Office of International Trade issue no export licenses and Collectors of Customs authenticate no shipper's export declarations, and no exportations be made or permitted in which said respondents appear to participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity, as a party to the exportation of any Positive List commodity; and that such denial of export license privileges extend not only to said respondents, but also to any other person, trade name, firm, corporation, or other business organization now or hereafter controlled by them or either of them, or in which they or either of them may now or hereafter be partner or hold a position of responsibility involving the preparation, filing, procurement, or use of any export control documents, or the supervision of any person so engaged.

The report of the Compliance Commissioner has been carefully considered, together with the record in this case, and it appears that the findings of the Compliance Commissioner are supported by the record and that his recommendations are fair and reasonable and should be adopted.

Now, therefore, it is ordered, As follows:

(1) All outstanding licenses in which respondents Cleon Kedros or Emanuele Trakakis appear as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise as a party in any capacity, are hereby revoked and

shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondents are hereby denied, for the duration of export controls, the privilege of obtaining or using or participating directly or indirectly either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party in the obtaining or using of export licenses, including general licenses, as well as validated licenses, for shipment from the United States to any destination of any commodity included in the Positive List as promulgated by the Office of International Trade and as such Positive List may be constituted from time to time.

(3) Respondents are hereby further declared ineligible, for the duration of export controls, to be parties to any exportation of any Positive List commodity, and during such period the Office of International Trade shall issue no export licenses and Collectors of Customs shall authenticate no shipper's export declarations, and no exportations shall be made or permitted in which said respondents appear or participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party to the exportation of any Positive List commodity.

(4) Such suspension shall extend not only to respondents, but also to any other person, trade name, firm, corporation, or other business organization now or hereafter controlled by them or either of them, or in which they or either of them may now or hereafter be partner or hold a position of responsibility involving the preparation, filing, procurement, or use of any export control documents, or the supervision of any person so engaged.

Dated: December 5, 1950.

JOHN C. BORTON,
Assistant Director for Export Supply.

[Case No. 96]

INDUSTRIAL SPECIALTY CO., LTD. ET AL.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of: Industrial Specialty Company, Ltd., Gerald Stanley Panchaud, John Braithwaite Panchaud, George Jackson, G. C. Stonehill, 18 Buckingham Gate, London S. W. I, England; Respondents.

This proceeding was begun by the issuance of a charging letter dated September 21, 1950, wherein the office of Industry and Commerce, Department of Commerce, charged respondents with having violated the provisions of the Export Control Act of 1949 (63 Stat. 7) and the regulations promulgated thereunder. During the period between June 1 and October 11, 1950, said Office of Industry and Commerce administered export controls within the Department of Commerce. Prior to and since that period, export controls were and are now administered by the Office of International Trade.

It was alleged in said charging letter that the respondents, who resided in and were engaged in business in London, England, placed an order with an American exporter for 100 tons of Molybdenite Concentrate, representing to such exporter, and through him to the Office of International Trade, for the purpose of procuring the issuance of an export license to such American exporter authorizing shipment to respondents, that the country of ultimate destination of the commodity was England, whereas respondents knew that the true country of ultimate destination was the U. S. S. R. and that transshipment to the U. S. S. R. was intended. It was further alleged that, on the basis of such false representation communicated to the Office of International Trade, the Office of International Trade issued such an export license, and that, upon shipment of 99,247 pounds of the commodity being made by the American exporter to respondents in England, respondents transshipped or caused to be transshipped such Molybdenite Concentrate from England to the U. S. S. R.

Upon delivery of the above-mentioned charging letter to respondents in London, England, the respondent Industrial Specialty Company, Ltd. filed an answer denying the charges. While the individual respondents, who are all either officers or employees of said company, did not answer the charging letter, the answer of the respondent company was considered as applying to each of them since each was charged with responsibility because of his knowledge of and participation in the acts forming the basis for the charges against the company. An oral hearing was not requested by respondents and, accordingly, the answer and the evidentiary materials in the possession of the Investigation Staff of the Office of International Trade were presented informally to the Compliance Commissioner, who has filed his report thereon, dated December 7, 1950, with the Assistant Director for Export Supply, Office of International Trade.

It appears from the record and the Compliance Commissioner's report that respondents are and at all times relevant to this proceeding have been engaged in England in the conduct of a general import and export business; that on or about December 28, 1949, respondents communicated with an American exporter requesting him to make an offer of Molybdenum Concentrate and requesting, also, to be advised whether an export license could be obtained for that commodity; that on or about January 4, 1950, in reply to the query regarding the obtaining of an export license, the American exporter informed respondents that Molybdenum Concentrate was subject to U. S. Governmental regulations covering export shipments and that it would not be licensed by the United States if it was for shipment to one of the iron curtain countries; that, thereafter, on or about January 10, 1950, respondents placed an order for 100 tons of Molybdenite Concentrate with the American exporter and represented that the ultimate destination of the commodity was England; that the American exporter thereupon, on or about February 7, 1950, filed with the Office of International Trade an application for an export license covering such order, communicating therein to the Office of International Trade the representation received from respondents that England was the country of ultimate destination of the commodity; that, pursuant to the application made by the American exporter and the representations contained therein, the Office of International Trade, on or about February 13, 1950, issued an export license to said American exporter authorizing the exportation of 100 tons of Molybdenite Concentrate to respondents in England as the country of ultimate destination; that shipment of respondents' order of January 10, 1950, was not made by the American exporter, and that, thereafter, on or about April 5, 1950, respondents placed a second order for 100 tons of Molybdenite Concentrate with the same American exporter; that the American exporter thereupon, on or about May 12, 1950, exported pursuant to the aforesaid license 99,247 pounds of Molybdenite Concentrate to respondents in England; and that, on or about July 1, 1950, respondents transshipped or caused to be transshipped such commodity from England to the U. S. S. R.

It also appears from the record and the Compliance Commissioner's report that, by virtue of respondents' knowledge of the materiality of a representation as to the country of ultimate destination in the licensing of Molybdenite Concentrate, the representation made by them on January 4, 1950, that the ultimate destination of the commodity was England was a continuing one which applied as well to their order of April 5, 1950, as it did to any previous order made by them. Moreover, since respondents had received actual notice of the general licensing policy of the United States with respect to Molybdenite Concentrate, their order of April 5, 1950, contained the implied representation that the ultimate destination of this commodity would be in conformance with the provisions of that policy, namely, that it would not be one of the iron curtain countries.

It further appears from the record and the Compliance Commissioner's report that, at the time of placing their order of April 5, 1950, with the American exporter, respondents had a purchaser for the Molybdenite Concentrate in U. S. S. R. and knew and intended that it would be transshipped to that country as the country of ultimate destination; that thereby respondents, with willful intent, made a false representation as to the country of ultimate destination in placing such order with the American exporter, said false representation being made with the purpose and intention that it would be communicated to the Office of International Trade in order to induce the latter to issue a license for the exportation of such commodity, or to allow shipment of such commodity under an existing license, to England, and thus respondents made such false representation indirectly to the Office of International Trade; and that respondents, in making such false representation

and in making or causing to be made transshipment of the Molybdenite Concentrate to the U. S. S. R. violated the laws and regulations relating to export control and demonstrated their future untrustworthiness in the handling of commodities under export control.

The Compliance Commissioner has therefore recommended that all outstanding export licenses in which respondents, or any of them, appear as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise as a party in any capacity, be forthwith revoked and ordered returned to the Office of International Trade for cancellation; that said respondents, and each of them, be denied for the duration of export control the privilege of obtaining or using, or participating directly or indirectly, either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party, in the obtaining or using of export licenses, including general licenses as well as validated licenses, for shipment from the United States to any destination of any commodity; that said respondents, and each of them, be further declared ineligible for the duration of export control to be a party or parties to any exportation from the United States; that, during such period, the Office of International Trade issue no export licenses and Collectors of Customs authenticate no shipper's export declarations, and no exportations be made or permitted in which respondents, or any of them, appear or participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party to the exportation of any commodity; and that such denial of export license privileges extend not only to said respondents but also to any other person, trade name, firm, corporation, or other business association with which they, or any of them, may be now or hereafter related by ownership, control, or any other manner whatsoever in the conduct of export trade.

It is to be noted that there is no evidence in the record of any knowledge or reasonable grounds for suspicion on the part of the American exporter that the ultimate destination of the Molybdenite Concentrate was other than England, as represented to him by respondents, and, accordingly, he was not joined as a respondent in this proceeding.

The report of the Compliance Commissioner has been carefully considered, together with the record in this case, and it appears that the findings of the Compliance Commissioner are supported by the record and that his recommendations are fair and reasonable and should be adopted.

Now, therefore, it is ordered, As follows:

(1) All outstanding export licenses in which respondents, or any of them, appear as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise as a party in any capacity, are hereby revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondents, and each of them, are hereby denied for the duration of export control the privilege of obtaining or using, or participating directly or indirectly, either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party in the obtaining or using of export licenses, including general licenses as well as validated licenses, for shipment from the United States to any destination of any commodity.

(3) Respondents, and each of them, are hereby further declared ineligible for the duration of export control to be a party or parties to any exportation from the United States, and during such period the Office of International Trade shall issue no export licenses and Collectors of Customs shall authenticate no shipper's export declarations, and no exportations shall be made or permitted in which said respondents, or any of them, appear or participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party to the exportation of any commodity.

(4) Such revocation and denial shall extend not only to respondents but also to any other person, trade name, firm, corporation, or other business association with which they, or any of them, may be now or hereafter related by ownership, control, or any other manner whatsoever in the conduct of export trade.

[Docket No. 3844]

MIAMI AIRLINES, INC., EXEMPTION APPLICATION

NOTICE OF HEARING

In the matter of the application of Miami Airlines, Inc., for exemption from the provisions of section 401 (a) of the Civil Aeronautics Act of 1938, as amended, and the issuance of a Letter of Registration as a large irregular carrier, in accordance with the provisions of Part 291 of the Economic Regulations of the Civil Aeronautics Board.

Notice is hereby given that a hearing in the above-entitled proceeding is assigned to be held on January 8, 1951, at 10:00 a. m., e. s. t., in Conference Room "A", of the Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C., before Examiner Ferdinand D. Moran.

Without limiting the scope of the issues presented by the application, particular attention will be directed to whether the present enforcement of the requirements of Title IV of the Civil Aeronautics Act, as amended, or any provision thereof, or any rule, regulation, term, condition or limitation prescribed thereunder, as it affects Miami Airlines, Inc., is an undue burden on that air carrier by reason of the limited extent of, or unusual circumstances affecting the operation of such carrier, and not in the public interest.

Subsidiary issues to a determination of whether the enforcement of the requirements of Title IV of the act is not in the public interest are:

(a) Will the operation of the air services proposed by Miami Airlines meet the statutory standards of section 416 (b) of the act and the tests in this respect set forth in the opinion of the Board issued on May 25, 1950, accompanying Orders, Serial Nos. E-4240 through E-4252?

(b) Is there a need for irregular air transportation by Miami Airlines?

(c) Do the past operations of Miami indicate that it can be trusted with the exemption authority sought and operate within such authority?

If the foregoing issues are determined in the affirmative, what is the proper scope of exemption of Miami Airlines from the requirements of Title IV of the Act and what terms, conditions and limitations should be imposed on such exemption?

Notice is further given that any person other than parties of record desiring to be heard in this proceeding must file with the Board on or before January 8, 1951, a statement setting forth the issues of fact or law to be controverted.

For further details of the matters concerned in this proceeding, interested parties are referred to the application, petitions and the Examiner's prehearing conference report on file with the Civil Aeronautics Board.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-694]

EQUITY CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of December A. D. 1950.

In the matter of The Equity Corporation, The Morris Plan Corporation of America, and Morris Plan Savings & Loan Company, File No. 812-694.

Notice is hereby given that The Morris Plan Corporation of America (Morris Plan), 103 Park Avenue, New York, New York, has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 requesting an order exempting from the provisions of section 17 (a) of the act, the proposed purchase by Morris Plan Savings & Loan Company (Savings Company), Market and Fourteenth Streets, Wheeling, West Virginia, from Morris Plan, of 250 shares of the capital stock of Savings Company. The proposed purchase price is $382.50 per share or an aggregate cash consideration of $95,625.

The Equity Corporation is a registered investment company with offices at 103 Park Avenue, New York, New York. The Equity Corporation owns in excess of 60% of the voting stock of Morris Plan. Morris Plan owns 250 shares or 25 percent of the outstanding capital stock of the Savings Company. The proposed transaction involves the purchase by an affiliated person of an affiliated person of a registered investment company, from a controlled person of such investment company, of securities of which the seller is not the issuer. This transaction is made unlawful by section 17 (a) of the act unless an exemption therefrom is granted by the Commission under section 17 (b) of the act. Morris Plan, accordingly, requests such an exemption.

The Savings Company was organized under the laws of West Virginia in 1917. Morris Plan acquired by original subscription 250 shares out of 1,000 shares of capital stock which the Savings Company issued at the time of its organization and Morris Plan holds this block of stock at the present time. The principal business of the Savings Company consists of making various types of loans. The operations of the Savings Company have been profitable, particularly in recent years. According to the balance sheet of the Savings Company as of September 30, 1950, its stock had a book net asset value of approximately $349 per share. The applicant asserts that upon liquidation of the Savings Company, a net asset value per share substantially greater than the current book value thereof would be realized. It is alleged that there is an excess of at least $35,000 in the reserve for losses carried on the Savings Company's balance sheet which produces an actual net asset value of approximately $384 per share. The application states that there is no established market for the capital stock of the Savings Company. It is asserted, therefore, that the proposed purchase price of $382.50, which amounts to a total purchase price of $95,625, is fair and reasonable.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after December 28, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules

and regulations promulgated under the act. Any interested person may, not later than December 26, 1950, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

ILLINOIS CENTRAL RAILROAD CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 7th day of December A. D. 1950.

The New York Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from registration and listing the First Mortgage Sterling 3% Bonds due March 1, 1951, of The Illinois Central Railroad Company.

The application alleges that: (1) The Illinois Central Railroad Company on August 1, 1950, announced that it would purchase for redemption the outstanding bonds of the above issue, and that it had made arrangements through London bankers to receive and accept these bonds for payment at the full face amount of £200 per bond plus interest to maturity.

(2) The Illinois Central Railroad Company further announced that, while these bonds were redeemable only in London, arrangements had been made for presentation and payment of the bonds in New York at The Guaranty Trust Company of New York, where payment would be made at the rate of $560 per £200 bond plus interest to maturity.

(3) This offer of the issuer to purchase these bonds for redemption expired at the close of business on October 31, 1950.

(4) The issuer has advised the applicant exchange that at the expiration of the offer of redemption only 41 bonds of the above issue remained outstanding in the hands of the public.

(5) The amount of this security outstanding in the hands of the public has been so reduced as to make distribution of the issue inadequate for continuation of dealings on the applicant exchange.

(6) Dealings on the applicant exchange in bonds of the above issue were suspended before the opening of the trading session on August 2, 1950.

(7) The rules of the applicant exchange with respect to striking a security from registration and listing have been complied with. Upon receipt of a request, prior to January 4, 1951, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

The Commission having examined said amendment and having considered the record herein and deeming it appropriate in the public interest and in the interest of investors and consumers that the time within which said securities may be issued and sold be extended to May 31, 1951, and that the said joint application-declaration, as further amended, be

granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said joint application-declaration, as further amended, be, and hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.
